# Third Grade Newsletter

From Mrs. Scott

March 15, 2024

## What Are We Doing Next Week??

\*\*MAP (Missouri Assessment Program) testing for third grade will be April 29th-May 8. We will be taking the Math and Communication Arts portions of the test. More information will be sent home about the MAP test and schedule closer to date.

**Reading:** We will continue activities and reading Dr. DeSoto. This story is outside of the regular reading series book. Our skill lesson will be using context clues to determine the meaning of unfamiliar words. We will also create a timeline of story events.

**Math:** Third grade will have a test over Unit 5 on Monday. This will cover fractions, money, area, and perimeter.

**Science:** We continue Unit 4 learning about weather data and using the information of temperature and rainfall to determine a suitable habitat for animals.

**Social Studies:** I am planning to have the remainder of our Famous Missourians presentations on Monday and then we will begin our next unit over states and capitals.

**English:** Our narrative writing will continue as we work on the middle and conclusions portions of our story. Our focus is about friendship, using the story Bok Chitto as a guide to developing a good plot.

---

### Here are some upcoming dates to remember:

March 15: Guardians Night Out for anyone who signed up!

March 17: St. Patrick's Day

March 18: Bookmobile at ACES
