INDEPENDENT AUDITORS' REPORT

To the Board of Education of
Avenue City R-IX School District

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying modified cash basis financial statements of the governmental activities and each major fund of Avenue City R-IX School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities and each major fund of the District, as of June 30, 2022, and the respective changes in modified cash basis financial position thereof for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension information on pages 5-14, 38-43 and 44-47 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of revenues collected by source – school district funds, schedule of expenditures paid by object – school district funds, summary schedule of revenues collected, expenditures paid, and changes in fund balances – school district funds and the schedule of selected statistics, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of revenues collected by source – school district funds, schedule of expenditures paid by object – school district funds, summary schedule of revenues collected, expenditures paid, and changes in fund balances – school district funds and the schedule of selected statistics are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2022, on our consideration of Avenue City R-IX School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Avenue City R-IX School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Avenue City R-IX School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2022
(Unaudited)**

The discussion and analysis of Avenue City R-IX School District's (District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2022. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements, including the notes to the financial statements, which begin on page 16, in order to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standards Board (GASB) Statement No. 34 - *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments* issued in 1999. Certain comparative information between the current year ended June 30, 2022 (FY22), and the prior year ended June 30, 2021 (FY21), is required to be presented in the MD&A.

Financial Highlights

Key financial highlights for fiscal 2022 and comparatives for fiscal 2021 are as follows:

- District-wide net position at June 30, 2022 was \$7.4 million, an increase of \$0.7 million over prior year net position.
- Total assets of governmental activities are the same as District-wide net position. Included in this amount were current assets of \$4.4 million, or 53 percent of the total, resulting in an increase of \$0.4 million over prior year. Current assets include cash and cash equivalents, bond escrowed cash and investments. Non-current assets were \$3.8 million, including capital assets (Land, Buildings and Improvements, Equipment and Fixtures and United Fiber Lease) net of accumulated depreciation and amortization of \$3.8 million.
- Total liabilities at June 30, 2022 were \$0.9 million; this resulted in a decrease of \$0.4 million from prior year.
- During the year ended June 30, 2022, the District had \$2.6 million in expenses, an increase of \$0.1 million over prior year total expenses; \$0.7 million of the expense was offset by program specific charges for services, grants or contributions. General revenues (primarily taxes and state and federal aid not restricted to specific purposes) of \$2.6 million and prior year net position was adequate to provide for these programs; this resulted in an increase in net position of \$0.7 million.
- In the Governmental Funds, all operating funds combined (General, Special Revenue, Debt Service and Capital Projects Funds) had \$3.3 million in revenues and \$2.9 million in expenditures (reported on the modified cash basis) and included \$0.4 million of debt repayment resulting in an increase in the fund balance of \$0.4 million over fiscal 2021.

Using this Financial Report

This annual report consists of two distinct series of financial statements: District-wide and Funds. The District-wide statements (Statement of Net Position and the Statement of Activities) on pages 16-18 provide information about the activities of Avenue City R-IX School District as a whole and present a longer-term view of the District's finances. The Fund financial statements, beginning on page 20, tell how the District's services for governmental activities were financed in the short-term as well as what remains for future spending. The statements then proceed to provide an increasingly detailed look at specific financial activities.

Reporting on the District as a Whole (District-wide)

Statement of Net Position and the Statement of Activities:

The view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal 2022?" The Statement of Net Position and the Statement of Activities provide the basis for answering this question. These statements include all assets and liabilities using the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Under the District's modified cash basis of accounting, revenues are recognized when received rather than when earned, expenditures and purchases of assets are recognized when cash is disbursed rather than when the obligation is incurred; except for

- the recording of capital assets, depreciation and amortization expense thereon in the District-wide financial statements,
- the recording of contractual staff salaries and related benefits for the 2021-2022 school year paid in July and August 2022 as expenditures in June 2022, and
- the recording of the refunding bonds and lease liabilities in the District-wide financial statements.

Therefore, when reviewing the financial information and discussion within this annual report, the reader should keep in mind the limitations from the use of the modified cash basis of accounting.

These two statements report the District's net position and changes in its financial position. The change in net position is important because it tells the reader whether the District, as a whole, has improved or diminished its financial position. Over time, the increase or decrease in the District's net position is one indicator of whether its financial health is improving or deteriorating. Causes of these changes may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Missouri, state public education funding formulas, the condition of the State of Missouri general fund, state and federal educational mandates, and other factors.

In the Statement of Net Position and the Statement of Activities, the District has the following activities:

(Unaudited)**

Governmental Activities - All of the District's programs and services are reported here including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities and food service.

Reporting the District's Most Significant Funds (Fund financial statements)

Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the General (Incidental) Fund, Special Revenue (Teachers') Fund, Debt Service Fund, and Capital Projects Fund.

Governmental Funds

All of the District's activities are reported in the governmental fund statements, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using the modified cash basis of accounting. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's educational programs. Major differences between the District's governmental activities (reported in the Statement of Net Position and the Statement of Activities) and its governmental funds are reconciled following the Statement of Activities and on the Governmental Funds Balance Sheet (pages 19 and 20).

The School District as a Whole

The Statement of Net Position provides the perspective of the District as a whole. The following table provides a summary of the District's net position (in thousands) at June 30.

(Unaudited)**

Current assets are available to provide resources for the near-term operations of the District. Non-Current assets include capital assets.

Capital assets are used in the operations of the District. These assets include land, buildings and improvements, equipment and fixtures and United Fiber Lease.

Current and non-current liabilities are classified based on anticipated liquidation either in the near-term or in the future. Current liabilities include the current portion of long-term obligations.

The following is a condensed statement of the District's changes in net position for the years ended June 30, 2022 and 2021 (in thousands).

Summary of Changes in Net Position

Governmental Activities

General revenues accounted for \$2.6 million in revenue (80 percent of governmental revenues). General revenues are composed primarily of receipts from property taxes and state and federal aid not restricted to specific purposes (\$2.1 million). Program specific revenues accounted for \$0.7 million (20 percent of total governmental revenues of \$3.3 million).

**AVENUE CITY R-IX SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2022
(Unaudited)**

The District had \$2.6 million in expenses; only \$0.7 million of these expenses were offset by program specific charges and grants. General revenues and prior year net position were adequate to provide for these programs. Instruction comprises over 56 percent of total District expenses, while student and staff support services, operation and maintenance of plant, food services, and school administration account for the majority of remaining expenses.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows the total cost of services and the net cost of services (in thousands). That is, it identifies the cost of these services that must be supported by tax revenue and unrestricted state entitlements.

	Total Cost of Services		Net Cost of Services	
	<u>2022</u>	<u>2021</u>	<u>2022</u>	<u>2021</u>
Instruction	\$ 1,447	\$ 1,319	\$ 1,095	\$ 896
Support Services	982	996	777	864
Non-Instruction/Support Services	<u>115</u>	<u>115</u>	<u>8</u>	<u>24</u>
Total Expenses	<u>\$ 2,544</u>	<u>\$ 2,430</u>	<u>\$ 1,880</u>	<u>\$ 1,784</u>

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and pupil.

Support services consist of the following categories:

Student Services - includes guidance and social work, health services, as well as the cost of student attendance reporting.

Instructional Staff Support - includes the activities involved with assisting staff with the content and process of teaching to pupils.

Building Administration - includes the cost of salaries and benefits for building level principals and office support staff.

Executive Administration, Business and Central Services - includes expenses associated with establishing and administering policies for operating the District, planning, budgeting, financial accounting, payroll, managing funds, personnel services, and other activities that support each of the other instructional and support services programs.

Operation and Maintenance of Plant - operations involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil Transportation - includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

**AVENUE CITY R-IX SCHOOL DISTRICT

(Unaudited)**

Food Service - includes the preparation, delivery, and serving of lunches, snacks and other incidental meals to students and school staff in connection with school activities.

Extracurricular Activities - includes school-sponsored athletics and other activities that are not a part of the regular instructional program.

Non-instruction/support services consist of the following:

Community Services - consist of those activities that do not directly relate to providing education for pupils in the District. These include early childhood programs, parent education, and child-care services.

Interest on Long-Term Debt - is the payment of interest and other related charges on debt of the District.

Capital assets purchased in the current year are reported in the program for which they are used in the Fund financial statements, but are not reported as current expenses on the Statement of Activities. The depreciation for assets directly associated with a specific function or a small number of functions is required to be reported as a direct expense of that function.

The District's dependence upon tax revenues is apparent. Over 75 percent of instruction activities are supported through taxes and other general revenues; for all activities, general revenue support is 73 percent.

Financial Analysis of the District's Funds

The District uses fund accounting to ensure and demonstrate compliance with state and federal finance related legal requirements. These funds are accounted for using the modified cash basis of accounting.

The governmental funds of the District provide information on near-term inflows, outflows, and balances of resources. Unassigned fund balances, in particular, measure the District's net resources available for spending at the end of the District's fiscal year.

The General Fund is the chief operating fund of the District. The day-to-day operations of the District are also reported in the Special Revenue Fund, Debt Service Fund and Capital Projects Fund. The net change in fund balance for the year in these combined operating funds was an increase of \$381,895. The fund balance at year-end of \$4.4 million was 154.01 percent of total expenditures for the combined operating funds. This fund balance would exclusively sustain the District for 18 months of operations. The administration and Board of Education have effectively built a fund balance to prepare for DESE and the state government's predictions of state funding reductions. This fund balance will reduce the number of potential program and personnel reductions that might be made if such a fund balance was not present.

**AVENUE CITY R-IX SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2022
(Unaudited)**

The General Fund balance at year-end was 153 percent of total expenditures of the General Fund plus the Special Revenue Fund. The General Fund is used for general activities of the District. The fund has a tax levy of \$3.3984. It began the year with a \$3,359,960 balance and increased \$326,106 to \$3,686,066. More local, county and state monies were received, spent more on instruction, transportation, operation and maintenance of plant services, food services and early childhood services and spent less on executive administration.

The Special Revenue Fund is used to account for expenditures for certified employees involved in administration and instruction. It also includes revenues restricted by the State for the payment of teacher salaries. It began the year with a zero balance and ended the year with a zero balance.

The Debt Service Fund is used to accumulate tax and other revenues for the payment of principal and interest on the District's refunding bonds. The fund has a tax levy of \$0.9800, creating revenue of \$0.4 million. Bond principal and interest is paid out of the Debt Service Fund. It began the year with a \$273,680 balance and decreased \$44,211 to \$229,469. Received more taxes and paid more on the refunding bonds.

The Capital Projects Fund is used for the purchase of major equipment, fixtures and buildings and improvements. It began the year with a \$409,803 balance and increased \$100,000 to \$509,803. More money was spent on equipment items. Transferred money from the general fund.

Combined Operating Funds Budgeting Highlights

The District's budget is prepared according to Missouri law and uses the modified cash basis, which is a comprehensive basis of accounting other than generally accepted accounting principles. This is based on accounting for certain transactions on the basis of cash receipts and disbursements. The term "combined operating funds" includes the General Fund, Special Revenue Fund, Debt Service Fund and Capital Projects Fund. Budgetary Schedules are on pages 38-42.

The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. When approving the original budget there are a number of estimates made regarding expectations from grants and local and state funding. As more accurate estimates and information become available, the District amends its operating budget to reflect these changes.

For the combined operating funds (page 42), the original budgeted revenues were \$2.8 million and final budgeted revenues were \$2.8 million. The original budgeted expenditures were \$2.6 million and final budgeted expenditures were \$2.9 million.

Final budgeted expenses increased \$0.3 million over the original budget. Changes to expenses include more regular instruction, health expenses, student activities, building administration,

operation and maintenance of plant, food service, principal payments, along with less SPED instruction, board services, executive administration and early childhood.

For the combined operating funds (page 42), the final budgeted revenues were \$2.8 million and actual revenues were \$3.3 million. The final budgeted expenditures were \$2.9 million and actual expenditures were \$2.9 million.

Actual revenues increased \$0.5 million over the final budget. Changes to revenue includes receiving more local, county, state and federal money.

Capital Assets and Debt Administration

Capital assets (in thousands) at June 30, were as follows:

	2021		2022	
	Net Capital	Accumulated		Net Capital
	Assets	Cost	Depr/Amort	Assets
Buildings and Improvements	\$ 3,813	\$ 6,296	\$ (2,571)	\$ 3,725
Land	9	9	-	9
Equipment and Fixtures	55	268	(191)	77
United Fiber Lease	-	8	(4)	4
Totals	\$ 3,877	\$ 6,581	\$ (2,766)	\$ 3,815

Capital asset additions in the current year were 2 interactive panels, a desktop computer, electronic sign, heat pump, water heater and united fiber lease.

Additional information on the District's capital assets can be found in Note 10 to the financial statements.

At June 30, 2022, the District had outstanding Series 2016 general obligation refunding bonds of \$875,000 reflecting principal payments of \$395,000 made during the year.

At June 30, 2022, the District had outstanding United Fiber lease obligations of \$3,707, reflecting principal payments of \$4,365 made during the year.

At June 30, 2022, the District's overall legal debt margin was \$3.6 million.

Current Financial Issues and Concerns

Avenue City R-IX School District's financial condition is strong. The financial condition of the District continues to improve.

**AVENUE CITY R-IX SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2022
(Unaudited)**

An increase in student population produces increased state revenues. The district has experienced student growth over the past decade. The District has very little commercial property located within its borders and therefore is highly dependent on local property taxes for day-to-day expenses. Local revenues represent well over 55% of the total revenues collected annually. Any change in school population and/or attendance rates has significant impact upon state revenues. The District remains fiscally conservative so that any negative changes in student population numbers and/or state funding will allow the District to remain financially viable. The District retains the desire to possess an adequate carryover in order to weather any short term financial concerns. It is important to note that the State's commitment to fully funding the state foundation formula is key to maintaining a good financial status. The legislature did this in 2021-22 and has made the same commitment in the upcoming school year.

With oversight from the Board of Education, the administration maintains good financial stewardship. The District has prevented deficit spending and is maintaining an adequate balance. The State of Missouri is attempting to fully fund the education formula through 2022-23.

The only reliable increases in funding for the Avenue City R-IX School continues to be through growth in local property values. This growth comes via new construction of housing and through growth in state assessed utilities. Because of the lack of growth in state funding, the District must remain cautious with regards to spending as new construction is not a predictable source of income. The state legislature and the governor have made significant financial promises in 2022-23 including the funding of a minimum teacher salary, a fully funded transportation formula and the reimplementation of the career ladder program. A growth in state revenues will be, should they arrive, greatly appreciated.

A significant portion of the School District's resources is derived from state aid based on student attendance. After a significant upturn in student enrollment a few years ago, the attendance numbers/enrollment numbers leveled off. Given the status of our neighboring Districts, the negative publicity that both have received, an increase in student enrollment was expected for 2021-22 at Avenue City. That increase did occur.

In August of 2014, the voters agreed to provide funding which would allow improvements and additions to the existing facilities. This need was created by the additional students now attending the District. This growth's impact upon operational costs increases revenues associated with attendance. However, it will also increase expenses for high school tuition. It is important to the Avenue City R-IX School District that the student population grow at the K-8 level proportionately to the level of grades 9-12. A sudden increase in high school tuition costs due to either a disproportionate number of 9-12 students or an increase in the per pupil tuition rate could be devastating to the District's financial status. A significant financial threat developed in 2018-19 when the St. Joseph School District (SJSD) initiated discussions to raise tuition by 75% over 3 years. Such an increase would have a significant impact upon the quality of education provided at the PreK-8th grade level. During follow-up negotiations with the SJSD, a tuition increase of \$500 per year for the next three years was agreed to verbally and through email. However, this threat to Avenue City's financial security looms large as no written agreement exists. While Avenue City's students present no hardships upon the high schools

concerning class sizes, the students contribute greatly to the Districts test scores, average daily attendance, graduation rates, etc. In addition, the Avenue City students provide other intangible benefits to their high schools, including but not limited to, leadership of the student body and exemplary citizenship. Any significant increase in tuition costs might require a decision by the local taxpayers to select one of three choices: 1) to increase local taxes to pay for the significant tuition increase, 2) cut programs at the PreK-8th grade level to fund such increases to tuition or 3) consider a construction levy to initiate high school classes at Avenue City. Two major factors would trigger this type of decision. 1) neighboring Districts' seeking a significant tuition increase and 2) an increase of student numbers that would contribute to increased tuition expenses.

Overall, the Avenue City R-IX School District continues to provide quality programs. The District's students continue to achieve at high levels. The Avenue City R-IX School District has committed itself to educational excellence for many years. In addition, the District's system of financial planning, budgeting, and control is well documented and respected.

 Reconciliation of Statement of Revenues, Expenditures and
 Changes in Fund Balances for Governmental Funds to
 Statement of Activities
 For the Year Ended June 30, 2022

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances of total governmental funds	\$ 381,895
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, some of the cost of those assets may be allocated over their estimated useful lives and reported as depreciation or amortization expense. This is the amount by which capital outlays exceeded depreciation and amortization in the current period.	(62,043)
Entering into a lease agreement creates a right to use asset and related lease liability. Paying a lease liability consumes current financial resources of governmental funds. This amount is the net effect of the difference between new lease liabilities recorded during the year and payment made on outstanding leases.	(3,707)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of the difference between new bonds issued during the year, if any, and payments made on outstanding bonds.	<u>395,000</u>

Avenue City R-IX School District
Notes to Financial Statements
Year Ended June 30, 2022

Note 1. Summary of Significant Accounting Policies

Avenue City R-IX School District (the District) was established in 1927 under the Statutes of the State of Missouri. The District operates as a "six director" district (with seven members of the Board of Education) as described in RSMo Chapter 162.

The financial statements of Avenue City R-IX School District have been prepared, on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The basic--but not the only--criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. Based upon the above, the District has determined that no outside agency meets the above criteria and, therefore, no agency has been included as a component unit in the District's financial statements. In addition, the District is not aware of any entity which would exercise such oversight which would result in the District being considered a component unit of the entity.

B. District-wide and Fund Financial Statements

District-wide Statements

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function.

Program revenues include (a) charges paid by the recipients for goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenue of the District.

Note 1. Summary of Significant Accounting Policies (Continued)

Fund Financial Statements

During the year, the District segregates transactions related to certain functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. Separate financial statements are provided for governmental funds. The focus of governmental fund financial statements is on major funds. The District considers each of its funds to be major and each is presented in a separate column.

Interfund transfers are flows of assets from one fund to another where repayment is not expected. Interfund transfers are recorded on the statement of revenues, expenditures and changes in fund balances – governmental funds and the budgetary comparison schedules as other financing sources (uses). The District made a teachers fund transfer for \$89,834. A \$162,326 or 7% x SAT x WADA transfer was also made for \$142,393.

C. Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are summarized by providing a separate set of self-balancing accounts which include its assets, liabilities and fund balances arising from cash transactions. The following funds are used by the District:

Governmental Funds

General (Incidental) Fund - Accounts for general activities of the District, including student activities, food service and textbook funds which are not designated in a separate fund.

Special Revenue (Teachers') Fund - Accounts for expenditures for certified employees involved in administration and instruction. It includes revenues restricted by the State for the payment of teacher salaries.

Capital Projects Fund - Accounts for the proceeds of long-term debt, taxes and other revenues designated for acquisition or construction of major capital assets.

Debt Service Fund - Accounts for the accumulation of resources for, and the payment of, principal, interest and fiscal charges on general long-term debt.

D. Measurement Focus and Basis of Accounting

Measurement Focus

The District-wide financial statements are reported using the economic resources measurement focus, as applied to the modified cash basis of accounting.

The Governmental Fund financial statements are reported using the current financial resources measurement focus, as applied to the modified cash basis of accounting. Only current assets and liabilities are generally included on the balance sheet. The statement of revenues, expenditures

and changes in fund balances present sources and uses of available spendable financial resources during a given period. The fund balances are used as the measure of available spendable financial resources at the end of the period.

Basis of Accounting

The District-wide statement of net position and statement of activities, and the fund financial statements, governmental funds, are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net position/fund equity, revenues and expenditures when they result from cash transactions, with a modification on the District-wide statements for recording of capital assets, depreciation and amortization expense, lease obligations and refunding bonds. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this modified cash basis of accounting, certain assets (such as accounts receivable) and their related revenues and expenses, certain deferred outflows of resources, certain liabilities (such as accounts payable) and their related expenses, and certain deferred inflows of resources are not recorded in these financial statements.

Accounting principles generally accepted in the United States of America would provide all governmental funds be presented on the modified accrual basis of accounting. All District-wide statements would be presented on the accrual basis of accounting. This basis recognizes all assets, deferred outflows of resources, liabilities (both current and non-current), deferred inflows of resources and all revenues and expenses during the year regardless of when cash is received or paid.

Fund Balance

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories listed below.

1. Nonspendable, such as fund balance associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned).
2. Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation. The Debt Service fund balance of \$229,469 was restricted at the end of the year for debt service payments. \$6,441 of the General Fund balance was restricted for 3 student scholarships.

Avenue City R-IX School District
Notes to Financial Statements
Year Ended June 30, 2022

Note 1. Summary of Significant Accounting Policies (Continued)

3. Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the School District Board of Education (the District's highest level of decision-making authority).
4. Assigned fund balance classification is intended to be used by the government for specific purposes and do not meet the criteria to be classified as restricted or committed.
5. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

Committed Fund Balance Policy- Commitments of fund balance shall be submitted to the Board for approval. The District did not have any committed fund balances at the end of the year.

Assigned Fund Balance Policy- The Board may establish assignments of fund balance from time to time in order to meet specific District needs. Assignments of fund balance shall be vetted and approved by the Superintendent. \$509,803 of the Capital Projects fund balance was assigned to capital projects during upcoming years.

Order of Fund Balance Spending Policy- Fund balances will be used in this order: restricted, committed, assigned and then unassigned.

Minimum Fund Balance- In order to preserve financial stability, the District must be prepared to respond to cash flow shortages, large or unexpected one-time expenditures, changes in the economy, and changes in state funding. The District shall, therefore, target a yearly unassigned general fund balance of 25 percent or 90 days of total operating expenditures. Following any year where the audited fund balance falls below the above targeted limit, adjustments in budgeted expenditures shall be incorporated into the budget development process for that year. If the Board determines that the minimum targeted fund balance is not attainable in the proposed budget being considered, it shall be the goal of the Board to reach that level within a specified period of time, not to exceed two years.

E. Inventories

The District does not maintain inventory cost records. Inventory is deemed to be immaterial and accounted for using the purchase method in which supplies are charged to expenditures when purchased.

F. Staff Salaries

The salary payment schedule of the District for the 2021-2022 school year requires the payment of salaries over a twelve month period. Consequently, the July and August, 2022 payroll checks are included in the financial statements as an expenditure paid in the month of June. This practice has been consistently followed in previous years.

Avenue City R-IX School District
Notes to Financial Statements
Year Ended June 30, 2022

Note 1. Summary of Significant Accounting Policies (Continued)

G. Compensated Absences

Vacation time, personal business days, and sick leave are considered as expenditures in the year paid.

H. Risk Management

Insurance Pool - The District is a member of the Missouri United School Insurance Council which is a “protected self-insurance program”. It is a self-insurance pool which provides loss sharing and reimbursement benefits for members of the pool. The District relies on this program for loss reimbursement for most potential losses including building and contents, equipment, electronic data processing, boiler and machinery, and automotive. The Council has acquired co-insurance coverage for catastrophic losses. The Council can, however, make additional assessments on its members to cover losses.

I. Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

J. Program Revenues

In the Statement of Activities, revenues that are received directly for a particular activity are reported as program revenues. The District has the following program revenues in each activity:

Instruction – Student activities and other state and federal monies (medicaid, title monies, basic formula-classroom trust fund, early childhood special education, IDEA, CARES and small schools grant).

Support Services – Food service and other state and federal monies (title II, food service state, school lunch and breakfast monies, after school snack monies, child nutrition program, department of health food service and transportation).

Non-Instruction/Support Services – PK tuition from parents, rentals, gifts, community services and other state and federal monies (Education Screening/PAT).

K. Pension Plans

Financial reporting information pertaining to the District’s participation in the Public School Retirement System of Missouri (“PSRS”) and the Public Education Employee Retirement System of Missouri (“PEERS”) (also referred to as the Systems) is prepared in accordance with Governmental Accounting Standards Board (“GASB”) Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended.

Avenue City R-IX School District
Notes to Financial Statements
Year Ended June 30, 2022

Note 1. Summary of Significant Accounting Policies (Concluded)

A Comprehensive Annual Financial Report (CAFR) can be obtained at www.psr-s-peers.org. The District is on the modified cash basis, therefore, member and employer contributions are recognized when paid and no net pension liability and no deferred outflows and inflows of resources related to pensions are included on the Statement of Net Position or the Balance Sheet.

L. Accounting Pronouncements Adopted

The District adopted the provisions of Government Accounting Standards Board (GASB) Statement No 87, *Leases*. GASB No 87 requires that a lease liability and related right-of-use-asset representing the lessee's right to use or control the asset be recorded upon the commencement of all leases except for short-term leases. Leases will be classified as either finance leases or operating leases, which are substantially similar to the classification criteria for distinguishing between capital leases and operating in existing lease accounting guidance. The Statement has not been applied retrospectively.

Note 2. Deposits and Investments

GASB Statement No. 72 clarifies the definition of fair value for financial reporting, establishes general principles for measuring fair value, provides additional fair value application guidance and enhances disclosures. GASB 72 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following table provides fair value measurement information for financial assets and liabilities measured at fair value on a reoccurring basis as of June 30.

Deposits

Custodial Credit Risk- Exposure to custodial credit risk related to deposits exists when the District holds deposits that are uninsured and uncollateralized; collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the District's name; or collateralized without a written or approved collateral agreement. The District's policy as it relates to custodial credit risk is to follow the Missouri Statutes and School Policies and Regulations requiring that all deposits with financial institutions must be at least 100% collateralized with approved securities. All securities which serve as collateral against the deposits of a depository institution must be safekept at a nonaffiliated custodial facility.

At June 30, 2022, the District's deposits were not exposed to custodial credit risk.

Investments:

Custodial Credit Risk

Exposure to custodial credit risk related to investments exists when the District holds investments that are uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the District's name. The District's investment policy is to follow School Policies and Regulations and the Missouri Statutes on investments. The District is authorized to invest in either open time deposits or certificates of deposit secured by collateral of any amount above the FDIC limit, United States Treasury Securities, United States Agency Securities (including coupon and zero coupon securities, discount notes, step-up securities, collateral securities, floating rate securities and mortgage backed securities), Commercial Paper, Banker's acceptances, and Repurchase agreements, or in any instrument permitted by law for investment of state monies.

The District's external investment pool investments are in MOSIP. Missouri Securities Investment Program (MOSIP) is a common law trust organized under the laws of the State of Missouri. Income is distributed daily to participating investors to reflect the market value of these money market type investments. All funds are invested in accordance with RSMo Section 165.051. Each participating district is deemed to own a pro-rata share of each of the investments or deposits which are held in the name of MOSIP. MOSIP money market series seeks to maintain a stable net asset value of \$1.00 per share at the end of the statement period. MOSIP issues a publicly available financial report. That report may be obtained by writing to the

At June 30, 2022, the District was not exposed to custodial credit risk as defined above.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit risk is measured using credit quality ratings of investments in debt securities as determined by nationally recognized statistical rating organizations-rating agencies. The District's policy for limiting investments based on credit ratings is that investments are limited to commercial paper and banker's acceptances which has received the highest letter and numerical ranking as provided by Standard & Poor's and Moody's. Issues are limited to corporations that are organized and operated in the United States, have a total commercial paper program in excess of \$500,000,000 and have a long term debt rating, if any, of "A" or better from Standard & Poor's and Moody's. Unless there is information to the contrary, obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality. The credit ratings of the District's investments are listed in the schedule above.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of investments. The District's investment policy provides that investments will remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated, therefore minimizing the risk that the market value will decrease due to changes in general interest rates. The District discloses its exposure to interest rate risk by disclosing the maturity dates of its various investments, as listed in the schedule above.

Concentration of Credit Risk

Exposure to concentration of credit risk is considered to exist when investments in any one issuer represent a significant percent of total investments of the District (any over 5% are disclosed). Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments may be excluded from this consideration. The District's policy is to diversify investments to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer, or specific classes of securities. At a minimum District investments will be allocated as follows: Time Deposits will have a maximum allocation of 50%, U.S. Treasuries/Securities with a maximum of 95%, U.S. Government Agencies will have a maximum of 70%, U.S. Government Agency Callable Securities and U.S. Government Floating Rate Securities have a maximum of 15%, Commercial Paper and Banker's Acceptances have a maximum of 40%, Banker's Certificates have a maximum of 20%, and Repurchase Agreements have a minimum of 3% and a maximum of 50%.

At June 30, 2022, the District did not have any concentration of credit risk representing more than 5% of investments.

Note 3. Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1, and are payable by December 31. All unpaid taxes become delinquent January 1 of the following year. The County collects the property taxes and remits them to the District on a monthly basis.

The District also receives sales tax collected by the State and remitted based on eligible pupil counts. The District is required to reduce its property tax levy by one-half the amount of sales tax estimated to be received in the subsequent calendar year. The District voted to waive this rollback in April 1996.

The assessed valuation of the tangible taxable property (excluding state assessed railroad and utilities) for calendar year 2021 for purposes of local taxation was:

Real Estate:		<u>12-31-21</u>
Residential		\$20,007,660
Commercial		1,393,012
Agricultural		912,280
Personal Property		<u>6,341,794</u>
Total		<u>\$28,654,746</u>

The tax levy per \$100 of assessed valuation of tangible taxable property for calendar year 2021 for purposes of local taxation was:

	<u>12-31-21</u>	
	<u>Unadjusted</u>	<u>Adjusted</u>
General Fund	\$ 3.3984	\$ 3.3984
Special Revenue Fund	-	-
Debt Service Fund	.9800	.9800
Capital Projects Fund	-	-
Total	<u>\$ 4.3784</u>	<u>\$ 4.3784</u>

The receipts of current and delinquent property taxes during the fiscal year ended June 30, 2022, aggregated approximately 100.2017 percent of the current assessment computed on the basis of the levy as shown above.

Article VI, Section 26(b), Constitution of Missouri limits the outstanding amount of authorized general obligation bonds of a district to 15 percent of the assessed valuation of the District (with the addition of state-assessed railroad and utilities). The legal debt margin at June 30, 2022 was:

Constitutional debt limit	\$4,298,212
Less: General obligation refunding bonds payable	(875,000)
Less: Lease Liabilities	(3,707)
Add: Amount available in Debt Service Fund	229,469
Add: Bond reserve	-
Total legal debt margin	<u>\$3,648,974</u>

Note 6. Commodities

The District is the recipient of food commodities from the U.S. Department of Agriculture. Although the District does not account for the receipt of the commodities in its accounting records, it does maintain a system of controls over the inventory and consumption of the food commodities. The amount of food commodities received during the year approximated \$5,361.58.

Note 7. Pension Plans

General Information about the Pension Plan

Plan Description. PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of the Systems, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the State of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989. The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Section 169.070 (9) RSMo, known as the "two-thirds statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount.

PEERS is a mandatory cost-sharing multiple employer retirement system for all non-certificated public school district employees (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of School Administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of the Public School Retirement System of Missouri (PSRS) must contribute to PEERS. Employees of the Systems who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600-169.715 and Sections 169.560-169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of PSRS.

Benefits Provided. PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Actuarially age-reduced benefits are available for members with 5 to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

factor. Members qualifying for “Rule of 80” or “30-and-out” are entitled to an additional temporary benefit until reaching minimum Social Security age (currently age 62), which is calculated using a 0.8% benefit factor. Actuarially age-reduced retirement benefits are available with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the “Rule of 80” but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

Summary Plan Descriptions detailing the provisions of the plans as well as additional information regarding the District’s net pension liability and deferred inflows and outflows of resources can be found on the Systems’ website at www.psrps-peers.org.

Cost-of-Living Adjustments (“COLA”). The Board of Trustees has established a policy of providing COLAs to both PSRS and PEERS members as follows: If the June to June change in the Consumer Price Index for all Urban Consumers (CPI-U) is less than 2% for consecutive one-year periods, a cost of living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted. If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted. If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted. If the CPI decreases, no COLA is provided. For any PSRS member retiring on or after July 1, 2001, such adjustments commence on the second January after commencement of benefits and occur annually thereafter. For PEERS members, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

Contributions. PSRS members were required to contribute 14.5% of their annual covered salary during fiscal years 2020, 2021 and 2022. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

PEERS members were required to contribute 6.86% of their annual covered salary during fiscal years 2020, 2021 and 2022. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The District’s contributions to PSRS and PEERS were \$126,344 and \$23,363, respectively, for the year ended June 30, 2022.

Note 8. Economic Dependency

The District receives a substantial amount of its support from federal and state grants or contracts. If a significant reduction in the level of these government supports were to occur, it could have an effect on the District's activities.

Note 9. Contingencies

Litigation -At June 30, 2022, there was no pending or threatened litigation against the District.

Grant Programs

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audits and adjustments by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing grants, refunds of any money received may be required. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants.

Note 10. Capital Assets

As a part of the change to the GASB 34 reporting model, the District has established a system to account for major capital assets. Only items with initial individual costs exceeding \$1,500 are included in the accounting for the financial statements. The District does not own vehicles. Original purchase dates are not available for many items and dates and costs are estimated using current costs for similar items discounted to the estimated time of purchase. Construction interest is not included in building costs. Depreciation and amortization has been calculated using actual or estimated purchase dates. Buildings and Improvements and Equipment and Fixtures depreciation and United Fiber Lease amortization is allocated to the programs based on what the purchases are used for. Depreciation and amortization is calculated using the straight line method over the estimated useful life beginning with the month of purchase. Estimated useful lives are as follows:

Buildings and Improvements	- 50 years
Equipment and Fixtures	- 5, 10 years
United Fiber Lease	- 22 months

The summary of general capital assets as of June 30, 2022 is as follows:

Budgets and Budgetary Accounting

The District uses the modified cash basis, which is a comprehensive basis of accounting other than generally accepted accounting principles, when preparing the budget for the year. The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1) In accordance with Chapter 67, RSMo, the District adopts a budget for each fund of the political subdivision.
- 2) Prior to July, the Superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all District funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues and transfers for the year.
- 3) A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4) On June 10, 2021 the budget was legally enacted by a vote of the Board of Education.
- 5) Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the board. Adjustments made during the year are reflected in the budget information included in the financial statements. Budgeted amounts were amended as necessary by the Board of Education.

INDEPENDENT ACCOUNTANTS' REPORT ON MANAGEMENT'S ASSERTIONS ABOUT COMPLIANCE WITH SPECIFIED REQUIREMENTS OF MISSOURI LAWS AND REGULATIONS

To the Board of Education
Avenue City R-IX School District
Cosby, Missouri

We have examined management's assertions that Avenue City R-IX School District complied with the requirements of Missouri Laws and Regulations regarding budgetary and disbursement procedures; accurate disclosure by the District's attendance records of attendance hours, resident membership on the last Wednesday of September and the number of students eligible to receive free or reduced price lunches on the last Wednesday of January, and accurate disclosure by the District's pupil transportation records of the average students scheduled to be transported eligible and ineligible for state aid, the number of miles eligible and ineligible for state aid and the allowable costs for pupil transportation during the year ended June 30, 2022. Avenue City R-IX School District's management is responsible for its assertions. Our responsibility is to express an opinion on management's assertions about the District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion about compliance with the specified requirements is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about whether management's assertion is fairly stated, in all material respects. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with the specified requirements. We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

In our opinion, management's assertions referred to above are fairly stated in all material respects.

This report is intended solely for the information of the Board of Education, management, and the Missouri Department of Elementary and Secondary Education and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Board of Education
Avenue City R-IX School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Avenue City R-IX School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 8, 2022. Our report included an explanatory paragraph addressing the District's preparation of its financial statements on the modified cash basis.

Report On Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Avenue City R-IX School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Avenue City R-IX School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Avenue City R-IX School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant

deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2022-1 and 2022-2 that we consider to be significant deficiencies.

Report On Compliance and Other Matters

As part of obtaining reasonable assurance about whether Avenue City R-IX School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Avenue City R-IX School District's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Avenue City R-IX School District's responses to the findings identified in our audit and described in the accompanying schedule of findings and responses. The District's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Findings – Financial Statement Audit

2022-1 Segregation of Duties

Condition: The bookkeeper is responsible for recording receipts and journal entries, payroll, accounts payable, bank reconciliations and all financial reporting and monitoring tasks.

Criteria: Internal controls should be in place that provide for adequate segregation of duties so as to provide reasonable assurance that errors and irregularities that may occur are detected in a timely manner.

Cause: The size of the District's accounting staff precludes certain internal controls that would be preferred if staff were large enough to provide optimum segregation of duties.

Effect: A concentration of duties does not provide the checks and balances of multiple people involved in accounting functions, increasing the chance that errors and irregularities may occur and not be detected in a timely manner.

Recommendation: Continued involvement of the Board is important. Review and approval of invoices for items purchased by the person receiving the merchandise can add to controls. Review of bank reconciliations by a second person helps with cash.

Response: In regard to "Segregation of Duties" for school personnel at Avenue City that handles financial matters, hiring additional personnel to help with this area is not a realistic expectation. The superintendent signs all purchase orders and vouchers. Checks require two signatures and a detailed analysis of District finances also occurs at each monthly Board of Education meeting.

2022-2 Preparation of Full-Disclosure Financial Statements

Condition: The District has personnel in place to perform all bookkeeping functions necessary to maintain a general ledger and prepare internal use statements. However, the District does not have the resources to have accounting professionals with the expertise, experience and training to prepare note disclosures in conformity with Governmental Accounting Standards.

Criteria: Preparation of note disclosures in conformity with Governmental Accounting Standards is required.

Cause: The District does not have the resources to have accounting professionals with the expertise, experience and training to prepare note disclosures in conformity with Governmental Accounting Standards.

Effect: This increases the possibility that errors could occur and not be detected in a timely manner.

Recommendation: We recommend that this service be outsourced, either to the auditor, or another accountant knowledgeable of the standards.

Response: We will outsource this service to our auditor, as it is not economically feasible to incur additional personnel costs to prepare the full-disclosure financial statements in house.
