August 15, 2022

Dear Middle School Parents,

The Federal Government requires numerous things from local public schools. One of those items requires any school receiving Title 1 remedial services funding to provide parent notification when a teacher does not meet certification requirements for any class for which they provide instruction.

Ms. Atoe has provided instruction for middle school elective classes. Ms. Atoe's certification is for grades up to, and including, grades 6. Ms. Atoe's instruction in these classes has been evaluated numerous times and has been found to be more than appropriate. If certification were available for these exploratory classes, she would seek to meet certification requirements as soon as possible.

Sincerely,

Becky Grimes, Principal

Don Lawrence, Superintendent
